A REAL ESTATE REVOLUTION

Keller Williams Realty is the largest estate agency in the world. That didn't happen by chance.

Formed in 1983, KW was built on one premise: How high can we lift our people.

Based on that simple philosophy, we have revolutionized the American real estate industry. Today, we are reshaping the global industry landscape as we extend the KW opportunity across the globe.

VISION

To be the Estate Agency company of choice

VALUES

Personal beliefs, Family, then Business

MISSION

To build **CAREERS** worth having
BUSINESSES worth owning
And **LIVES** worth living

WE ARE BUILT BY AGENTS FOR AGENTS

As a result, we understand you are the key to our company's success, not the other way round.

THE MODEL REDEFINED

Our agent-centric, interdependent model allows you to be your entrepreneurial self, while taking full advantage of the resource provided for you.

DEPENDENT

TRADITIONAL COMPANIES

Associates are dependent on the company. Associates have fewer opportunities for accumulating wealth.

INTERDEPENDENT

KELLER WILLIAMS

Associates have an interdependent relationship with the company and a mutual interest in success.

Associates and Market Centre teams work as teams to achieve financial goals.

INDEPENDENT

SELF EMPLOYED – NO SUPPORT

Associates are independent.

Associates assume complete responsibility for financial, legal and management responsibilities.

AGENT-CENTRIC APPROACH

THE **kw** EFFECT

We stand behind our agents
– not in front of them.

Because your clients choose
YOU – not your company.

BRAND MATTERS. AND YOURS IS **#1**

At the core of the KW business model is the belief that estate agency is a local business, driven by individual agents and their presence within their communities.

We support you by delivering world-class marketing systems that power your business.

SHARED DECISION SHARED SUCCESSES

Built on the philosophy that people matter most, we put our associates at the centre of every decision we make – literally.

“Keller Williams believes that agents are stakeholders in the success of the market centre and therefore should share in the decision making.”
